Dear Mr. Rockley:

Georgia State University is in the midst of an unprecedented upward trajectory fueled by innovation that is made possible by your support. According to the 2019 U.S. News and World Report, we are the second-most innovative university in the U.S. – we are changing the face of higher education, the student experience and the city of Atlanta.

We've increased scholarship awards by more than 50% and graduation rates by 22 percentage points. We are well on our way to becoming one of the world's top research institutions. We're driving growth and development in Atlanta and across the state - offering countless opportunities to our students and faculty.

The support of generous donors like you fund the innovative programs, technologies, and minds that have created a campus without boundaries for our students. Thank you for helping us build a brighter future for our students.

Sincerely,

Dale Palmer
Chief Financial Officer and Assistant Treasurer
